

Contec® MicroCinch™ Mop

Disposable microfiber pads for efficient pharmacy cleaning and disinfecting

The USP <797> compliant, disposable Contec MicroCinch Mop is constructed of 100% synthetic microfiber that provides superior removal of gross soil and fine particulate. Reduces cross-contamination associated with reprocessed mops, and is suitable for ISO Class 7 and 8 environments. Compatible with most common disinfectant chemistries including quaternary, alcohol, peroxide, and bleach-based disinfectants, the low-linting flat mop can be used wet or dry, and the pad provides uniform surface coverage and liquid distribution.

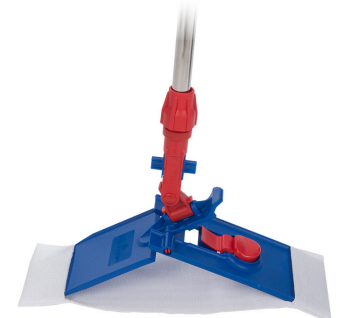

The “pocket” style design allows for quick changing of mop pads and the autoclavable, collapsible mop head frame, available in heavy duty plastic or stainless steel, easily snaps into the pad pockets. Contec’s MicroCinch Mop is the ideal solution for daily cleaning and disinfecting of Secondary Engineering Controls required in pharmacy environments. Cleanroom packaged for guaranteed quality and cost effectiveness. Available gamma irradiated. Validated sterile to a Sterility Assurance Level of 10⁻⁶ per AAMI ISO11137 Guidelines.

Pocket design allows for quick attachment to hardware, making the Contec MicroCinch Mop a better alternative for efficient, quick cleaning. See part details for Heavyweight construction.

Features	Benefits
Constructed of 100% synthetic microfiber	<ul style="list-style-type: none"> Compatible with most common disinfectant chemistries Eliminates phenomenon known as “quat binding” where disinfectant solutions are rendered ineffective by organic materials found in some mop constructions and reprocessed mops
Disposable mop pad	<ul style="list-style-type: none"> Eliminates cross-contamination from laundries, lint and organic material in cotton and rayon mops Eliminates potential chemistry reactions from laundered or reprocessed mops Construction of Heavyweight option allows for 2x the surface area coverage
Low-linting construction	<ul style="list-style-type: none"> Microfiber material is excellent for removing gross soil and fine particulate from cleanroom floors
Appropriate cleanroom packaging	<ul style="list-style-type: none"> Reduces chance for or introduction of contamination Conveniently packaged for appropriate daily/weekly mopping needs
USP <797> compliant	<ul style="list-style-type: none"> Compatible with ISO Class 7 and 8 environments

Part No.	Description	Packaging
HCPM5001	MicroCinch Microfiber mop cover with pockets, 5" x 15.5" (12.7 x 39.3cm), Standard Weight	8/bag, 15 bags/case
HCPM5051	MicroCinch Microfiber mop cover with pockets, sterile, 5" x 15.5" (12.7 x 39.3cm), Standard Weight	2/bag, 7 bags/outer bag, 5 outer bags/case
HCPM7001	MicroCinch Microfiber mop cover with pockets, 5" x 15.5" (12.7 x 39.3cm), Heavyweight	8/bag, 15 bags/case
HCPM7005*	MicroCinch Microfiber mop cover with pockets, sterile, 5" x 15.5" (12.7 x 39.3cm), Heavyweight	2/bag, 7 bags/outer bag, 5 outer bags/case
